Objective

Motivated Information Technology graduate with a strong foundation in software/hardware troubleshooting, database management, and application development. Experienced in building full-stack web applications, desktop management systems, and developing automation scripts. Seeking to apply my combined 900 hours of internship experience to build efficient, user-centric software solutions in a dynamic tech environment.

Experience

- **AMI Global Recruitment** Mar 2026 - Jul 2026
IT/Tech Support (OJT - 600 hrs)
Designed and deployed a fully responsive, multi-page recruitment web application featuring interactive 3D UI elements, a secure serverless backend, and comprehensive admin and job portals.
- **Deped Makati Division Office** Jul 2024 - Sep 2024
IT/Tech Support (OJT - 300hrs)
Developed a desktop-based Task and Queue Management application integrated with Google Firebase for secure, real-time data storage and streamlined office operations.

Education

- **Pateros Technological College** 2024 - 2026
Bachelor of Science in Information Technology
- **Pateros Technological College** 2022 - 2024
Certificate in Computer Science
- **Fort Bonifacio Senior High School** 2020 - 2022
Information and Communication Technology
